

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
00009	Compton And Shawford Parish Council	00009/00001/053	
Would welcome expansion of strategy to cover public open space not dedicated to children's play or sport.			
00010	Corhampton And Meonstoke Parish Council	00010/00001/053	
Enhancing the quality of life should be a key issue with the retention of the rural character of the villages and the reduction of intrusive noise and light pollution.			
00013	Denmead Parish Council	00013/00001/052	
Can a definition of 'green infrastructure' be supplied			
00025	New Alresford Town Council	00025/00001/057	
Increased provision of green spaces within settlements required. There should be two separate criteria: a minimum for green open spaces and a set of minimum other facilities together with funding.			
00086	Environment Agency	00086/00001/006	
Option 2 above would better protect sites with biodiversity interest. Open Space Study should include the need to reduce/ avoid disturbance to areas of biodiversity. Need to test options against Habitat Regulations, in terms of impact upon sensitive SPA, SAC and Ramsar sites.			
00091	Natural England	00091/00001/015	
Support high quality greenspace, accessed by low-carbon means (e.g. walking, cycling, public transport), close to where people live. Support promotion of increased access to such spaces, in order to reduce emissions, increase healthy physical activity and ease pressure on sensitive sites (e.g. SSSI, SAC). Access to elsewhere, such as coast and National Parks, AONB through sustainable transport.			
00320	Ms R Wetherill	00320/00002/060	
Allotments should be protected and added to			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
00381	Mr Paul Byers	00381/00001/044	
Protect and provide access as best to keep people healthy - give adequate spaces for children and youth.			
00556	Mr A Gossling	00556/00002/055	
Protect and preserve Greenfield sites			
00840	Mr Paul Reeves	00840/00002/052	
- All new housing should have own garden space for relaxation and children's play. - Adopt Carpenters Field Denmead as open space or SINC, should the land cease to be farmed.			
01083	Ms Elizabeth Robinson	01083/00002/043	
Include gardens in this. Keeping gardens green is an easy way to let everyone get a slice of greenery. Stop the backyard building.			
01151	Mr C H Dore	01151/00002/047	
Allotments: As food and food miles become more of an issue perhaps all developments over, say 50 units, should include an area for communal gardening/allotments, particularly as densities increase and household individual gardens get smaller.			
01243	Ms Serita Campbell	01243/00002/032	
There should be an option to include leaving everything as it is. Things do not always need developing.			
01283	Mr And Mrs Roy And Jill Phillips	01283/00002/043	
Not sure what is meant by 'green infrastructure'.			
01426	Mr And Mrs Catling	01426/00003/041	
True green space is farm land, woods, fields, pigs, sheep, etc. It is not indoor facilities			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
01501	Revd David Simpson	01501/00005/049	
<p>At present, Knowle Village provides a good balance of green spaces and landscaping that make for a pleasant year-round environment. Limiting cars by providing parking spaces seems a constructive policy: We have two per house, one per flat. With the exception of parking for shops and visitors spaces, parking elsewhere should be subject to fines. Measures such as these are essential if we are to avoid the worse case scenario - 5 vehicles per house, as can happen in completely unregulated areas. Should 'open' street parking be a thing of the past?</p>			
01950	Mrs Carol Reid	01950/00001/031	
<p>Swimming pool for Alresford.</p>			
01951	Mr Robin Sharp	01951/00001/049	
<p>Use of some farm land.</p>			
01960	Mr Ian Merritt	01960/00001/059	
<p>Evaluate the existing countryside and protect it as a high quality environment. Promote rural foot paths and raise the standards for equal access to all. Support small holdings and farming.</p>			
01965	Mrs Joyce Simmons	01965/00001/048	
<p>Do not build on good agricultural land- we are losing our best soils under concrete. Keep farming alive, buy local produce, open space, footpaths for recreation will be maintained through beautiful farmed countryside. People enjoy their allotments, growing fresh veg so do not build on them. We do not want urban fringe and kickabout zones</p>			
01968	Mr Barry Collins	01968/00001/034	
<p>Enhancing the quality of life should be a key issue with the retention of the rural character of villages, the reduction of intrusive noise pollution. Also light pollution after dark. Anti intruder lights/alarms should be encouraged in preference to permanent lighting.</p>			
01973	Mr Ewan Simmonds	01973/00001/065	
<p>Building in the ability to react to change in a way that maintains the balance required in any given situation.</p>			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
01984	Mr Peter Gardner	01984/00001/053	
Most important: Keep Barton farm undeveloped. It is the "lungs" of North Winchester, not to be built on. Stop building on Winchester's back gardens. They should be "green-field" not "brown-field" sites. Too many have been spoiled.			
01986	Reverend Mike Gardner	01986/00001/048	
Open up better access to private 'green' space.			
01989	Dr Keith Paskins	01989/00001/058	
Extremely imposed pressure to increase development must be matched by correspondingly enhanced powers to maintain open space and prevent sprawling urban developments joining up to create the human equivalent of a battery chicken farm.			
01994	Miss J Nicholson	01994/00001/061	
Stop destroying footpaths			
01995	Mrs Diana Paskins	01995/00001/057	
We need stronger powers to protect green space. At present the balance favours profit hungry developers.			
02003	Mr Ptol Slattery	02003/00001/068	
Preserve irreplaceable greenfield sites.			
02008	Mr Caesar Slattery	02008/00001/068	
Preserve Greenfield sites - an irreplaceable an limited source of Green space			
02009	Mr Ian Embrey	02009/00001/030	
Preserve Greenfield sites. They are a limited source of Green Space and are irreplaceable.			
02010	Mrs Sylvia Moss	02010/00001/029	
Once built on Greenfield sites cannot be replaced now or in years to come.			
02014	Mrs Carole Embrey	02014/00001/023	
Preserve Greenfield sites.			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02016	Mrs Vera Goddard	02016/00001/051	
<p>If Durley was to become a local hub, the provision of pavements and street lights and shopping facilities would make it more acceptable to local people. I was born in Durley, as was my family. When I was a child, we had 2 shops, a Post Office, a Bakehouse and a visiting Butcher. Now its just a dormitory village, nothing here; housing is all bought by wealthier people, as a disabled person I'm trapped in my house because I have to use a scooter over any distance because I can't walk very far. As we don't have any pavements I can't go out, and to have a small shop opposite, next to the Robin Hood pub would change mine and a lot of other peoples lives. It would also revitalise the village and bring it back to what it was 6 years ago.</p>			
02022	Mr Michael Carter	02022/00001/051	
<p>Since Winchester is a rural district with important countryside even outside its AONB it is imperative that this sort of open space is maintained as much as is possible. The countryside approaches closely to the majority of the market towns and is much used by residents and visitors.</p>			
02049	Mrs Wendy Thorpe	02049/00001/050	
<p>Less housing Housing on the scale envisaged will swallow up our countryside and put too much pressure on the few parks and open spaces left.</p>			
02092	Mr Fergus Christie	02092/00001/059	
<p>Quality of environment vital for health. Countryside and open space vital for quality of life, social, recreation for children and quality of life for families. Small gardens = More open space needed. Conserve character. Avoid loss of countryside. Protect biodiversity. Protect countryside policies.</p>			
02093	Mrs Jane Graham	02093/00001/040	
<p>Why does green space have to be used What happens to the wild animals that live in theses spaces</p>			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02173	Chalkbank Estates Ltd	02173/00001/005	Mr Jeremy Gardi
<p>The re-use of brownfield land within existing urban areas should be maximised in order to safeguard existing designated open spaces from development pressure. The former railway cutting site, New Farm Road/ Bridge Road, New Alresford is such a brownfield site. In accordance with the previous Local Plan Inspector's conclusions regarding this site, it should not be subject to any restrictive open space or other such designation, but should be brought forward for development as soon as a suitable redevelopment solution can be identified.</p>			
02229	Gleeson Homes	02229/00001/063	Turley Associates
<p>In assessing the need for and provision of "green infrastructure", care must be taken to ensure this balanced against the need to make best use of the finite amount of land within urban areas and hence reduce the need to allocate further green field sites on the periphery of urban areas. For Example, if existing private garden space is afforded too much protection, it will become more difficult to make more efficient use of suitably located lower density housing areas. This displacement will have to be made up elsewhere, most likely on the edge of urban areas. The Core Strategy should instead look to designate density/character areas in accordance with paragraph 46 of PPS3 Housing. This will provide a more structured and transparent approach to the redevelopment of existing garden amenity in development control decisions in the future.</p>			
02243	Mr Stuart Jones	02243/00001/048	
<p>Qn 23b, option 2: This is ticked only on the basis that these additional types of green space do not become an offset for the loss of natural countryside green space. The outcome should be an increase in accessible green sapce.</p>			
02245	Mr Marcus Heys	02245/00001/051	
<p>Not an approach but a suggestion - Opening up of cycleway along the old Botley to Bishops Waltham railway line would help</p>			
02274	Mr Peter McManus	02274/00001/058	
<p>Preserve Greenfield sites- an irreplaceable and limited source of Green Space.</p>			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02374	Campaign To Protect Rural England (CPRE)	02374/00001/063	
<p>The current open space fund system should be reconsidered. It would be preferable for developers to be required to provide the open space within their developments. The current system of allowing developers to make a financial contribution simply makes life easier and cheaper for developers. Many villages now have reached saturation point with play equipment etc and parish councils cannot afford the annual cost of maintaining and insuring the facilities, if they do not have enough residents who use them or indeed suitable land available to erect such equipment. Finding available green space becomes increasingly difficult as limited Greenfield sites are lost to development.</p>			
02381	Mr John Doyle	02381/00001/050	
<p>I must admit I did not understand the 2 questions (23a and 23b)</p>			
02385	Mrs Elisabeth Hopson	02385/00001/061	
<p>Zero tolerance on building on open space</p>			
02414	Mr David Simmons	02414/00001/061	
<p>Protect the countryside we have, its lanes and paths and encourage its use for agriculture and "biodiversity". That means don't cover large parts of it with concrete.</p>			
02415	Ms Kelsie Learney	02415/00001/046	
<p>Plans should be based on a series of strategies for (a) local (b) district and (c) sub regional provision for different aspects of provision with the ability to use money/ land for any of these levels as considered appropriate.</p>			
02427	Mr Michael Emmet	02427/00001/030	
<p>The council will be aware that CALA has promoted the provision of extensive open space and infrastructure at Winchester City North. However, it is important that any wholesale review of policy should be done in the context of the possible introduction of a community infrastructure levy so that the impact of such provision can be assessed in the round with other development contributions.</p>			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02428	Mrs Christine Gardner	02428/00001/037	
Do not build on fields and gardens of Winchester city area. There has been far too much building already.			
02430	Mr Roger Challis	02430/00001/052	
Leave green space green.			
02432	Mr Charles Nicholas Perry	02432/00001/028	
Where is the Alresford Design Statement Mr Opacic has had plenty of time to have ensured its approval instead of saying it was awaiting adoption. The town's reaction to this question is right in there...unless the wording has been massaged.			
02435	Mr William Stroud	02435/00001/045	
Gardens should also be considered as open space and not brown field sites. This is particularly vital in rural settings. Have a look at the biodiversity in the Harold Hillier Garden (which I visit most weeks) and realise that private gardens offer a similar biodiversity which should be preserved and not build on piecemeal.			
02443	Mr Martin Froment	02443/00001/049	
You could allow local communities to designate a certain percentage as open space.			
02469	Mr A Digby	02469/00001/053	
Indoor facilities are not green space.			
02478	Mrs Sue Digby	02478/00001/058	
Stop building on open green field sites and allotments between villages/towns. Identifiable, sustainable communities are what keep people happy in their living space. Change Hampshire too much and we'll all move to Scotland or abroad to find the space. Our wonderful countryside is what attracts tourists.			
02493	Mr Rupert Johnson	02493/00001/041	
All town and villages within the district should be given a green belt.			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02494	Mrs Katie Dutson	02494/00001/048	
Bishops Waltham has a high quality and numerous open spaces at present.			
02498	Mr Barry Wright	02498/00001/051	
Keep as much green space as you can.			
02506	Mr Barney Ball	02506/00001/057	
Stop gap filling in local communities, it is increasing crime and creating parking nightmares. Use open spaces more wisely to create local parking, driveways, bus stops, cycle paths and the odd bit of enjoyable wasteland. Allotments are important surely to living in a sustainable environment, and therefore should be encouraged, as should commercial ventures on this sort of land.			
02531	Mrs Clare Carter	02531/00001/014	
I think the provision for protecting our 'Green space' should have a much higher priority than at present (i.e. contradictions arise from proposals to build new houses but keep the Green spaces) Allotments and Farm land should be given priority if we want to be a more sustainable country as a whole. To be able to grow/ provide food is surely one of the most important aspects of life and with this loss of foresight for the importance of agriculture (Green Space) it strikes me as very worrying.			
02546	Mr Loren Butt	02546/00001/039	
Rethink the 40 dwellings/ha figure, for all areas, and insist lower densities at the outer edges of Key Hubs, in the interest of biodiversity.			
02550	Mrs Alison Matthews	02550/00001/052	
The current open space system should be reconsidered. It would be preferable for developers to be required to provide open space within their developments. Allowing them to make financial contributions simply makes life easier and cheaper for developers. Many villages have now reached saturation point with play equipment etc. Parish Councils cannot justify the cost of maintaining and insuring the facilities if they do not have enough residents who use them or indeed suitable land on which to erect equipment. (Note: Money from the fund can only be used for capitol expenditure).			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02557	Mr Geoff Olden	02557/00001/051	
Leave the fields alone.			
02558	Mr Kevin Andreoli	02558/00001/041	
<p>Little Frenchies Field has been the target of Denmead Parish Council's attempt to find more open space for recreation, since 2003. Currently the shortfall of Denmead on such space is not being addressed in any other way. Although the site was nominated as a Local Reserve by the WDLP inspectors they failed to take notice of the evidence provided by DPC that the site is in a flood plain, as delineated by the Environment Agency. This site could have part of its use as formal sports pitches, served from the existing pavilion in Ashling Park. Any other site will require the building and then maintenance of a second pavilion, an additional cost to the tax- payer. Perhaps Winchester could supply Denmead with the 18 acres of recreation land we currently require</p>			
02572	Mr Michael Harmer	02572/00001/051	
Major housing developments should incorporate allotment space			
02592	Mr Rob Gazzard	02592/00001/023	
<p>The Forestry Commissions directs you to two documents linked to Green infrastructure within Winchester: "Forestry Commission Woodlands in Southern Hampshire Guidance and evidence for PPG17 - Open spaces, sport and recreation in Forestry" and TEP document to the PUSH board "A green infrastructure strategy for urban South Hampshire."</p>			
02604	Mr Douglas Emmett	02604/00001/026	
Ensure that greenspace/recreational land/sports facilities are designated for development as a last resort.			
02606	Mrs Claire Chapman	02606/00001/054	
<p>Recognise the importance of large gardens in residential areas. They are a refuge for wildlife (supporting more wildlife diversity than agricultural land), often house mature trees, and provide an amenity e.g. green outlook, birdsong, noise barrier, traffic fume filter) for all residents of an area, not just the garden owner.</p>			
02629	Mr Michael Blackstaff	02629/00001/042	
Yes, existing private gardens. Please stop concreting them over.			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02630	Mr Robert Shepherd	02630/00001/034	
Open spaces should be protected. I cannot determine how 1 and 2 differ, so cannot answer, however all green open spaces and allotments must be protected.			
02665	Mr Martin Burton	02665/00001/044	
Moving to Option 2 would mean that planners and developers would be able to infill yet more green areas. It is essential to have adequate open space and greenery in amongst the bricks and mortar. Indoor facilities are not open space, this is cheating the system which has been established to protect our right to open space.			
02670	Mr Nigel Paterson	02670/00001/054	
Primary age children and their schools need to have a prominent part in whatever you do in regard to this matter.			
02685	Mr Malcolm Thornton	02685/00001/034	
No more housing estates. Infill only			
02698	Mrs Rosemary Stephens	02698/00001/042	
Far more detailed/discussions would be necessary. re. housing densities			
02775	Mrs Rosemarie Lee	02775/00001/049	
Where there is demand the provision of allotments is a legal obligation, not an optional extra.			
02784	Mrs Victoria Louise Ruth Moore	02784/00001/013	
Why create green space when we have such beautiful and now rare natural green space - Britain is turning into fake green spaces.			
02833	Mrs Gillian Mulley	02833/00001/047	
Strengthen the status of countryside immediately adjacent to the SDA's so that the existing rural landscape is retained in these areas. The aim should be to stop speculative purchase of agricultural land and its subsequent degradation into marginal land used for non- agricultural purposes or poor quality grazing land.			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
02847	Mr Stuart Lindsay	02847/00001/047	
Focus development on genuine brownfield sites (i.e. not gardens) and not allow development of undeveloped land.			
02874	Mr Michael Hollis	02874/00002/052	
Plant trees!			
02924	Mrs Helen Field	02924/00001/050	
don't build on it			
02925	Mrs Gaynor Parker	02925/00001/059	
Reduce the amount of housing.			
02930	Mrs Jacey Jackson	02930/00001/036	
If you build an indoor facility on open space it ceases to be open space - to my understanding. Leave some areas alone - they don't all have to be managed and controlled or done unto. Allow wild space for brambles and blackberry picking - if you identify areas as green infrastructure the hSE will get their hands on it, tidy it up or fence it off.			
02932	Mr Jonathan Simmons	02932/00001/067	
Stop building on our open countryside, and stop bulldozing golf courses.			
02941	Mr Piers Austin	02941/00001/060	
Just that whatever is done needs to be affordable and sustainable of course. Again self sufficiency in energy is a must. The idea of providing allotments for communities is very welcome, putting people/families back in touch with nature and growing their own food, reducing food miles/emissions etc. Well done a great idea.			
03016	Mrs Danielle F Giles	03016/00001/062	
Build on 'brownfield' sites, disused/ run down/ neglected areas; back gardens.			
03029	Mr Robert Toleman	03029/00001/025	
Yes, sort out the present environment for the existing population first.			
03042	Mrs Janet Nobes	03042/00001/046	
Use frenchies field and the junior school's extra field as playing fields.			

Question 23c. Are there any suitable alternative approaches for open space, recreation and green infrastructure that could support a high quality environment in the District?

Customer Reference	Name	Comment Reference	Agent
03043	Winchester City Business Park Ltd And Church Commissioners	03043/00001/021	Terence O'Rourk
Part of the Bushfield camp site provides an opportunity to contribute to green infrastructure by adding high quality and fully accessible recreational opportunities, together with nature conservation benefits.			
03068	Dr Sheila E Gould	03068/00001/046	
What is green infrastructure?			
03071	Mr John Hayter	03071/00001/069	
The Open Space Study was not available during the consultation period. Open space standards should cover people of all ages. Green infrastructure must be low maintenance and affordable and is of lower priority than affordable housing.			
03105	Save Barton Farm Group	03105/00001/059	
Preserve Greenfield sites- an irreplaceable and limited source of Green Space.			
03135	Hampshire And Isle Of White Wildlife Trust	03135/00001/021	
Winchester should deliver the outcomes of the PUSH green infrastructure where it relates to the PUSH Area and then consider whether there are opportunities to use standards set in this for the rest of the Winchester District. Higher standards should also be considered for the SDAs and MDAs.			
03199	Sport England (South East Region)	03199/00001/010	
PPG17 stud provides vital evidence for both indoor and outdoor provision, existing system of open space funding needs to continue and develop to cover a wider range of provision.			
03223	Mr David Sansom	03223/00001/057	
All new housing should have own garden space for relaxation and children's play. Adopt Carpenters field Denmead as open space or SINC, should the land cease to be farmed.			

Q23c

The following list made this comment:

- All new housing should have own garden space for relaxation and children's play.
- Adopt Carpenters Field Denmead as open space or SINC, should the land ceased to be farmed.

Each response has been counted as an individual comment.
