

Environmental Statement

The [Town and Country Planning \(Environmental Impact Assessment\) Regulations \(SI 1999/293\)](#), as amended, set out the circumstances in which an Environmental Impact Assessment (EIA) is required. EIA may obviate the need for other more specific assessments.

Where an EIA is required, Schedule 4 to the regulations sets out the information that should be included in an Environmental Statement. The information in the Environmental Statement has to be taken into consideration when the local planning authority decides whether to grant planning consent. It may be helpful for a developer to request a 'screening opinion' (i.e. to determine whether EIA is required) from the local planning authority before submitting a planning application. In cases, where a full EIA is not required, the local planning authority may still require environmental information to be provided.
