SUMMARY

One of the criteria for awarding non-domestic rate relief for village shops, post offices or village food stores is that the premises must be "within the boundaries of a qualifying settlement", as outlined under Section 42A of the Local Government Finance Act 1988.

The settlement list must be compiled and approved by the Council by the 31st December prior to the commencement of the financial year for which it is effective, and during this period it must be made available for Public Inspection. The whole of England is treated as rural, apart from urban areas that have a population of more than 10,000. Maps issued by the former Department of Transport, Local Government and the Regions (DTLR) designate rural areas. For Winchester City Council, the map indicates that the whole of the District is to be treated as rural,

apart from the Winchester Town area. The map is the starting point for compiling the settlement list with the criteria that each settlement must:

- Be wholly or partly within the authority's area;
- Appear to the billing authority to have had a population of 3,000 or less on the preceding 31st December; and
- Be wholly or partly within a designated rural area (as specified in a designation order).

The settlement list as outlined in Appendix A has been compiled with the assistance of the Strategic Planning team, as in previous years.

There is one change to the list for 2017/18 –

- Colden Common has been included with those parishes whose rural settlements are based on the parish boundaries. The rural settlement area will be based on the parish boundary but excluding everything contained within the settlement boundary as both exceed a population forecast of 3,000.

No businesses are currently affected by this change.

Approval of the Rural Settlement list is delegated to the Portfolio Holder for Finance and Corporate Policy under the Scheme of Delegation to Portfolio Holders (as set out in Part 3, Section 3 of the Council's Constitution).

PROPOSED DECISION

That the list of Rural Settlements shown in Appendix A be approved for the year 2017/18.

REASON FOR THE PROPOSED DECISION AND OTHER ALTERNATIVE OPTIONS CONSIDERED AND REJECTED

Population forecasts have been considered but do not trigger any further changes in the proposed list.

RESOURCE IMPLICATIONS:

With effect from 1 April 2013 there was a change to funding arrangements for Non-Domestic Rates. Prior to the changes the cost of Mandatory Relief was met by the national pool and the cost of Discretionary Rural Rate Relief was shared by the Council and the pool. Following the change the Council now funds 40% of all relief given for both mandatory and discretionary elements above the amount of relief in payment prior to the change in funding arrangements. The cost of this relief and all other rate relief is accounted for in the Collection Fund.

During the current year approximately £22,000 will be awarded in Mandatory and Discretionary Rural Rate Relief. The relief for 2015/16 was £28,442.
