

Introducing...

THE PLACEMARKER PROJECT!

Students from Cowplain Community School have been looking at the past and present Heritage of the West of Waterlooville major development area, which spreads across the two local authority areas of Winchester and Havant.

With their findings, research and planning they have devised three free gaming apps which are now available on Google Play for any android device to download.

VIRTUALWOW, LIGHTUPWOW and WOWQUIZ are three individual games which look at the current housing development site and its growth as well as the history of the area before the new sites were developed.

THE APPS AVAILABLE FOR ANY ANDROID DEVICE & ARE FREE TO DOWNLOAD FOR FREE FROM GOOGLE PLAY!
