Subject: Further Modifications to WCC Local Plan Part 1- Joint Core Pre-Submission Stage

Attachments: Rep Form Earlier Version.doc

To:  
Head of Strategic Planning  
Winchester City Council

Following the Council's further modifications to the Local Plan Part 1-Joint Core Pre-Submission Stage Representation we propose that full account is taken of the recent changes in retention of Council housing rental income. As a result, Winchester City Council has announced plans for substantial funding to be allocated for improving existing homes, the building of 100 new council houses over the next 3 years and investing in improving the condition of housing estates.

It is important that the number of additional council houses are comprehended within the total planned housing figures for the District including those planned for the period beyond the initial 3 years.

I should be pleased if you would include this further submission with the attached WCRA response forwarded on 12 March 2012 and which was allocated WCC ref. 2375.

I should be grateful if you would acknowledge receipt of this e-mail and confirm that the contents of this and the attachment will be included in the documents to be considered by the forthcoming Examination in Public.

John A Thomas  
Chairman  
Winchester City Residents Association
