

# Winchester District Local Plan Review

# Inspectors' Report

## Foreword by the Chief Executive

This document is the Report received from the Inspectors appointed to consider objections to the Winchester District Local Plan Review. The Report deals with objections which were submitted in writing and those that were discussed at the Public Local Inquiry held between June 2004 and March 2005. It gives details of recommendations being made by the Inspectors to the City Council.

It is the immediate intention of the City Council to consider the Report and to decide what action to take on each of the Inspectors' recommendations. These recommendations and any proposed action on them will be reported to the City Council's Local Plan Committee at a series of meetings during October and November 2005 which will then make recommendations to Cabinet in December 2005. The City Council will then be requested to approve the Proposed Modifications for publication in January 2006, with a period of six weeks allowed for the public to comment on them.

**Please note that the Inspectors' Report is being made available for information only, and that comments on the Report are not being invited. However, comments may be made on the Proposed Modifications during the consultation period in January 2006.**
