Re Texas Drive, Oliver's Battery, Winchester, SO22 4HT

Dear Sir,

I express my support for the enforcement of the planning notice given by the Winchester City Council on 9.01.2018.

I hope to see that this enforcement results in the return of the ground to the state outlined in that notice.

All the steps outlined in the notice are vital.

The appellant has disregarded the consideration of the planning committee and has shown that he wishes to completely ignore the provisions.

The building of the house on the wrongly sited platform will be intrusive into the sensitive environment.

It will set a precedent in this sensitive area. Previous planning over the last 30 years has sought to preserve the size, position, height, siting of replacement houses on similar plots and this was already too large and over developed for the area. If the present building were to progress the impact would be even more extreme.

This developer/builder should be made to comply with the law in the same way that the rest of us have to.

He should not be allowed to ignore an enforcement notice in the way that he has done so far.

The land should be re graded.

The footings, and platforms should be removed (not just hidden).

Yours faithfully

Diane Smith
