Decision due: 7 October 2019

Case Officer: Lloyd Fursdon

Applicant: Mr Simon Duncan

Proposal: T1 Liquid Amber - Fell and poison the stump

T2 Cherry - Fell and poison the stump

G1 Maple - Reduce back to boundary

These trees are now of a significant size and a fraction of the potential. The Cherry and Liquid Amber are not suitable for small gardens and causing excessive shading, growing towards the light further into the garden due to group pressure from the woodland behind. The continual pruning required would be detrimental to both the health of the trees and amenity value, whereas their removal would make little difference to the street scene.

Applicant: Mrs Elizabeth Braakenburg Dyce
Proposal: Please can I have permission to

1 pollard the mature 2 x limes and 1 x horsechestnut at the rear of my property

(wall on Edgar Road). Last done in 2017

Trees overhang the pavement on Edgar Road. In recent weeks someone has cut part of one of the limes back and left the branches on the pavement

2 trim neighbours pleached hornbeams on boundary between 34 and 36 St Cross Road

3 remove over grown hazel on front boundary with 38 St Cross Road. We want to replace the (broken) wooden fence at this point with a brick wall as part of re landscaping of the front garden and replacement of the front solid wooden gates (to be submitted as a separate request). We intend to plant pleached trees along the front of our garden along St Cross Road and will be replacing the hazel with shrubs yet to be decided

4 Having consulted with our neighbour (Paul Dugdale) at 34 St Cross Road, remove a limb of their tree which overhangs our front side path to raise the canopy and give us more light. Foliage on this limb is dry / dead as it does not get light
