We have consulted with Enjoy Tree Care Limited (tel: 07921 997272) who propose crown lifting to maximum 5m & removal of dead wood, with maximum cuts of 150ml.

This is for safety reasons especially given the close proximity to the highway and track to the recreation ground, as well as to improve light, access to our property, and the sewage works at the bottom of the adjoining track, and for the benefit of the tree itself.

They have been badly affected by ivy and are now virtually stumps covered in dead ivy. They also look like they could fall on my shed at some point. I have discussed this with the local tree chap/gardener Mr Yeates and he thinks this is completely reasonable considering the condition of the trees (they look virtually dead). They are not visible to the road or other areas, only from my house. I want to have them felled to a stump.
