

Willmott Dixon Group

Founded in 1852, privately-owned contracting and interior fit-out group Willmott Dixon is dedicated to leaving a positive legacy in our communities and environment. We create value for customers, stakeholders and communities by working in a sustainable and responsible way to shape the built environment and make a positive impact to society's well-being.

Considerate Constructors Scheme

As a founding partner of the Considerate Constructors Scheme (CCS) in 1997, all Willmott Dixon sites are registered with the CCS. The scheme influences the way we design our strategy of work and we are committed to working to the higher code of conduct.

FEBRUARY NEWSLETTER

Winchester Sport & Leisure Centre

Welcome to our project newsletter. We hope to keep you informed as to our plans and progress towards the delivery of the Winchester Sport & Leisure Centre.

What has happened?

Over the last month, the site continues to evolve with the main pool structure now complete, as well as the structural steel frame to the energy centre.

The installation of the roof sheets is also complete, and the installation of roof finishes is well underway. Construction of the SFS (steel framing system) and weather board has been ongoing throughout the month. This work starts to close the building facades, which assists in protecting the internal areas from the weather.

We have recently commenced the curtain wall element of the façade. The curtain walling is an excellent feature of the building's design and will change the look of the building in the coming weeks.

Internally the construction of the blockwork walls nears completion on both the ground and first floor. Mechanical and electrical works have commenced in February.

The remedial works within Bar End Road continue with the footpath adjoining Barfield Close remaining closed while these works progress. This footpath will re-open in March, with the works then moving to the adjacent footpath on Bar End Road, outside of our site boundary. This work will allow the electrical connection works to be completed.

What happens next?

Throughout March we will be focusing on:

- Installation of roof coverings.
- Façade works to the building, including cladding and glazing.
- Internal drylining works will commence.
- The internal mechanical & electrical installation.
- Completion of the remaining concrete slabs.
- Installation of the scaffold to the main pool area.
- Testing of the learner and main pools.

Diary Date

The next resident's drop-in meeting is on Thursday, 26 March 2020, in our Winchester Depot Offices between 4.00pm & 6.00pm.

Other news

The first phase of funding for the Building Lives Academy ends after the March course. We have another full cohort signed up to start after March. Further funding is currently being sought to continue the learning into the Spring term and beyond.

We have a number of events happening on site in March including a Careers Day.

Willmott Dixon are a founding Associate Member of the Considerate Constructors Scheme (CCS). The project is scored against a code of practices set out below:

- ✓ Care about **appearance**
- ✓ Respect the **community**
- ✓ Protect the **environment**
- ✓ Secure everyone's **safety**
- ✓ Value their **workforce**
