**Proposal:** Schedule of Work - Parsonage Barn

The trees to boundary with Compton Street have become overgrown and as such a number of the trees have become very unhealthy.

There are also two beach trees to the rear of the property which would benefit from being crown lifted.

The schedule of works we would like to implement are as follow:

T1. Spruce Tree

This tree is not suitable for its location and will continue to grow even taller blocking more light from the indigenous trees behind it. The spruce has the majority of its growth on the North side and is very unbalanced. We would like to fell the tree, and replant with a suitable specimen tree.

T2. Sycamore Tree

Remove major limb growing to the north of the tree and the small lateral alongside to union.

T3. Lime Tree

Crown reduction (2-3m) to boundary

T4. Copper Beach

Reduce extended limbs and crown raise lower canopy to 1250mm from ground level

T5 Yew Tree

Crown raise to 1250mm from ground level and trim remaining canopy

T6 Ash Tree

Remove dead tree

T7 Cherry Tree

Crown reduce mid to lower canopy around the full circumference

T8 Cherry Tree

Remove one low lateral limb and sever ivy

T9 Sycamore Tree

Crown reduce north side of the canopy by 2-3m

T10 Walnut Tree

Reduce north side of the canopy by 304m and any extended limbs

T12 2 x Beech Tree

Crown Raise by approx 3m
