The Withy Beds – I would just ask that the comments and proposed condition are considered by the Inspector should the appeal be allowed.

The Old Piggeries – Should permission be granted, we would want to know that provisions for foul and surface water drainage have been incorporated properly – can a condition be attached in this situation?

I would like to invite you to make comments on both and ask that you complete and return the attached Consultation Request Forms by **21 August 2020**.
