Proposal: Sycamore (T1) is diseased and Council have already told us that it must be felled. Sycamore (T2) is in close proximity (1-2m) and because of this it has grown in an unbalanced way, leaving it vulnerable once T1 is removed. Advice from a tree surgeon is that T2 is also diseased.
Photographs of the trees have already been sent to Mr Ivan Girdler who acknowledges these issues and feels that felling of both trees is required.
Closer review of the WCC Public map suggests that T1 and T2 may be outside the TPO area.
