Dear Mr Brown,

Following our phone call I have a number of concerns, I am seeking clarification in regard to the highways comments in response to the below email.

However, I have concerns regarding the ecology, the status of your client and the other requirements of policies DM4, CP5 and TR6, and the impact on the character of the area.

As I said I do not consider it appropriate on this occasion to extend the assessment process and will therefore be looking to refuse the application.

Can you please send over the amended site plan that you mentioned that demonstrated the visibility spays you have mentioned and that parking can be accommodated on the sites in line with the Residential Parking SPD?

Kindest regards

Rose Lister
