

Next Generation Winchester Survey Privacy statement

The Next Generation Winchester (NGW) survey aims to explore the challenges faced by younger people (aged 18-35) who may want to work and/or live in the Winchester District. It gives young people the opportunity to influence housing policy, future house building and local housing options across the district.

More details about the project can be found on the [WCC NGW webpage](#)

Data Protection

Kis Marketing have been asked by Winchester City Council to carry out its Next Generation Winchester (NGW) survey.

The personal information you provide will only be used by KiS Marketing and Winchester City Council in connection with the Next Generation Winchester (NGW) project and to improve services.

Winchester City Council or KiS Marketing may contact you to follow up any of your comments or to update or consult you again. We will not share your information with anybody else or use it for any other purpose.

Information and statistics which does not identify individuals, may be shared with partner organisations and published.

Some of the information is sensitive personal data (such as disability and ethnic group), which we can only collect, process and hold with your explicit consent. *Only provide this information if you consent to KiS Marketing and Winchester City Council holding this information and using it for the purposes explained.*

For more information about how Winchester City Council use your personal data and your rights, please see: <https://www.winchester.gov.uk/about/data-protection-privacy>
