Why should I check in to a venue?

The NHS QR code check in feature is a key part of the ongoing coronavirus response. Scanning the NHS QR code poster with the NHS COVID-19 app on arrival at a venue is the quickest and simplest way to check in securely, enabling you to receive important public health messages as fast as possible.

Quick and simple

No need to share personal information – check in via the app in a matter of seconds.

Secure

The app uses privacy preserving technology, allowing you to check in securely and anonymously.

Protection

Protect yourself, your friends and family, and the NHS – help to slow the spread of coronavirus.

Know if you have been at risk

If other people were at the same venue on the same day as at a similar time to you, and later test positive for coronavirus, you may get an alert from the app so you can take action quickly.

Private digital diary

The places you've visited are stored on your phone so you do not need to remember everywhere you have been if you are contacted by NHS Test and Trace.

To download the NHS COVID-19 app, search for **"NHS COVID-19"** in the App Store or Google Play Store on your phone

GET IT ON **Google Play**

Download on the **App Store**
