Case No: 21/02754/TPO
Date Valid: 2 November 2021

Press advert date:
Comments by: 30 November 2021
Decision due: 28 December 2021
Case Officer: Mr Ivan Gurdler

Applicant: Mr Robin Sharpe
Proposal: Removal of a Western Red Cedar with a replacement tree being planted as part of the planned wider garden landscape improvement works for the garden of Shawford Lodge including numerous new trees to be planted towards the eastern side of the lower garden area and in connection with this works.

The tree is in good health and does not require any remedial works currently for purposes of health and safety. However, the Western Red Cedar is alien to the area which is dominated by broadleaf species with only one notable other coniferous Cedar tree clearly visible in a neighbouring garden to the south.

Arguably the tree has limited visual amenity, to the west is the railway with a dense broadleaf screen of trees and to a north is a line of broadleaf trees both of which restrict and limit views of the tree from further afield. The Council was accepting of the removal of this tree recently (2019) as part of the proposed development of the site (application reference 19/01687/FUL) and that the tree has not significantly changed since this.

The replacement tree, species to be agreed with the Local Authority but likely to a Beech (*Fagus sylvatica*) will be much more in keeping with the immediate surrounding

area and extend the tree boundary on the southern side of the site once established.
