## YOUR COMMENTS ON THE CASE

This facilities being run and the noise that it is creating for local residents now feels like we're living next to an industrial estate rather than an agricultural site. We are hearing constant beeping noises from forklift trucks and other large vehicles constantly moving around and the sound of what seems like a processor/digger type noise a lot and this seems to be travelling towards our house. This has got more noticeable in the last two years and it concerns me that this will only get worse. The site overall looks awful and when I visited the site a few month ago I was shocked by just how bad it was down there and understand now why it's affecting us so much. It doesn't feel like anything agricultural. I understand that Mr Collins will be just trying to make the site profitable but it's just in the wrong location for this and affecting quite a few residents and needs to go back to its original purpose.
