YOUR COMMENTS ON THE CASE

i object to this application. I have lived in my current house for the past 10 years and regularly walked the woods with views over the supposed wood storage. The only wood I have seen are trees removed. Any wood which was illegally brought onto site was generally burnt. I had complained about the extensive burning which resulted in toxic fumes causing poor air quality and the environment polluted for a rural residential . This burning generally took place early morning and late evening. The site already generates a lot of traffic and the land being used for wood storage is on agricultural land and is destroying the country side. there are woodlands surrounding this area which i know to be a beautiful ancient woodland with a TPO. There are badger setts in there and rare whiskered bats. the noise and pollution will disturb their natural behaviour and inhibit birds breeding
