YOUR COMMENTS ON THE CASE

Why are on earth should someone think they can just go about changing a garage into a new house without any due regard to the people who live nearby or visit. It appears to be little more than greed to double the impact on the environment and locally provided services by creating 2 dwellings where once there was just one - with no thought of the impact to others and said local services. One of the really serious considerations being the danger that ensues due to the way the road is at that particular point on the Botley Road.

And why should the appellant be given any time whatsoever to remove the things he has erected without authorisation - they should be gone immediately and all made good for the benefit of the residents of and visitors to Shedfield, their safety and security.
