<p>Test Valley Borough Council and Winchester City Council have a diverse workforce, each Council employing around 500 employees, including both office-based and manual workers, across a full range of local authority functions at District/Borough level. The Councils are seeking occupational health contractual provision via a framework agreement over a period of 4 years. Once the framework has been established, the Authorities will as and when required call off the framework by following the ordering procedure set out in the framework agreement. Each call off will be subject to the call off terms and conditions attached to the framework agreement as Schedule 5. Whilst focusing on core provision sought, this tender also seeks information (including pricing) on additional services that may be offered by the successful provider</p>
