Five key cost of living issues Jan 19-Oct 22

Energy year on year (2019, 2020, 2021, 2022)

This shows cumulative energy clients by year with trend lines. The trend line for the current year indicates how many clients we might see later in the year based on historic data.

Cumulative number of people who we've helped with energy issues each year

Crisis Support Year on Year (2019, 2020, 2021, 2022)

This shows number of people coming to us because they can't afford to eat or need other financial assistance. The trend line for the current year indicates how many clients we might see later in the year based on historic data.

Crisis | Charitable support & foodbanks & Localised social welfare

Figures for crisis support represent the number of people Citizens Advice helps with either referrals to food banks' or other charitable support (covers any emergency financial support or support in kind people need to make ends meet) and localised social welfare

Emerging issues and trends seen by the advice team:

- **Employed people approaching or at crisis** (and don't qualify for targeted support). Including young adults & young families
- **Repeat food bank vouchers:** People returning for more food bank vouchers, more often (and going beyond usual maximum).
- **People on pre-payment meters struggling with auto-debt collection** (incl. inherited debt from previous tenant)
- **Housing:** Landlords seeking to sell property or move back in (due to own rising costs), private renters with increased rent (or being evicted), incl. older people
- **Long Covid:** first successful PIP claim recently. Increasing numbers of employed people approaching us for advice re long covid, employment and cost of living.
- **Increasing drop in to both offices, increasing complexity & increasing urgency**
