

Subject: Crane Lift at Four Acres Stables, Clewers Hill, SO32 2LN

Date 21st November 2022

Good Morning Mr Manning,

Thank you for your time onsite on Friday,

Sorry for the delay in getting this over to you,

As mentioned while on the site visit there's no available room to position on the access road to your property. Rig Up a mobile crane or lorry loader as you'll need approximately 7.2m to allow for a piece of equipment large enough to lift and load your mobile home, from its current position onto a waiting vehicle.

The Current access road measures at 3.1m wide and access into the property is also not permissible due to the very tight swing in

I'm sorry we couldn't be any assistance for this project/job but please bare us in mind for any future works

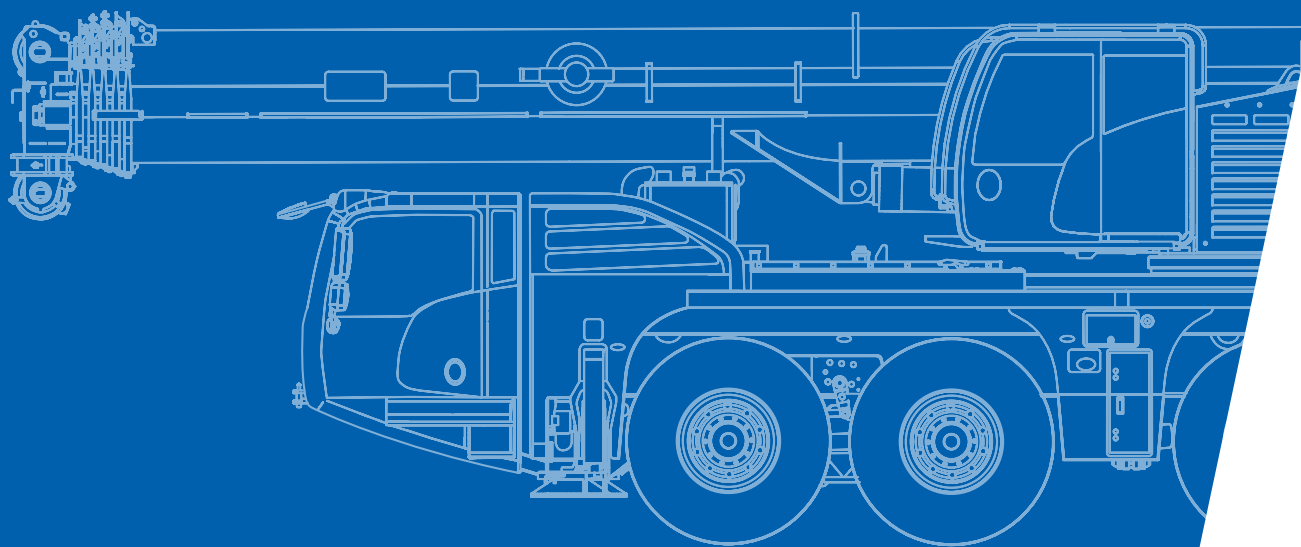

Best Regards

Stuart Banks
