## **Strategic Key Performance Indicators**

The following table presents an update against the strategic key performance indicators that were approved by cabinet on 21 May 2020 (report CAB3230 refers).

The availably of the data for each KPI is often from sources external to the council and varies from quarterly, annually and biennially. Where the data is available at annual intervals, this will usually be reported after the end of each financial year.

For ease of reading, the KPIs with quarterly data have been moved to the top of the table followed by KPIs with less frequently available data.

A column has been added to the table below to capture the impact and effect that the COVID-19 pandemic is having or will have on the performance data for the year.

## **RAG Parameters:**

This performance indicator is on target

This performance indicator is below target but within 5% of the target

This performance indicator is below target by more than 5%
