

# VS VICTIM SUPPORT

**Do you feel worried about what's going on in your neighbourhood or are intimidated by a neighbour's behaviour?**

**Antisocial behaviour (ASB) affects many people and can have an impact on you, your home and your community. If you're experiencing antisocial behaviour, you don't have to cope on your own. We can help you deal with it.**

**Victim Support is a free, confidential and independent charity that tailors support to you. We can help you by:**

- Creating a safety plan
- Discussing how to report incidents
- Informing you of your rights under the Victims' Code
- Assisting with writing a Victim Personal Statement, if one is required
- Listening non-judgementally
- Helping build awareness of how traumatic events can affect you
- Looking at how to build resilience
- Accessing interactive support guides on My Support Space
- Scoping support networks
- Signposting to other agencies who offer support
- Support in talking to housing associations.

**To get support please contact your Housing Officer who can discuss a referral with you.**
