The table details parish council areas that are wholly outside the South Downs National Park area, as well as those which are partly within the South Downs National Park (identified in brackets). The parishes wholly within the South Downs National Park are not listed.

The CIL collected shown is the total collected for each parish area, before the 15% which the Parish Council or Winchester Town Forum receives is subtracted (*this is 25% for Denmead which has a neighbourhood plan). The parish share is shown in column 3.

The major development areas of West of Waterlooville (Newlands Parish) Whiteley (Whiteley Parish) and Barton Farm (Headbourne Worthy Parish) are rated £0 for CIL as the infrastructure required is provided under s106 planning obligations as part of the development. Therefore there are no CIL payments collected from these developments.
