

Winchester City Council Go Greener Faster Grant Scheme

The Go Green Faster Grant Scheme aims to support not-for-profit organisations to take action in response to the climate emergency. Project funding can be used to help them, and the communities they support, become more sustainable and to reduce energy use and carbon emissions.

This will help deliver the council's target of Winchester district being carbon neutral by 2030. It supports the priorities and pathways set out in the council's Carbon Neutrality Action Plan (CNAP).

Grants of between £5,000 and £10,000 are available and organisations are required to secure a minimum of 25% of the total project cost in match funding from other sources.

Outcomes and impacts of funded projects will need to demonstrate they can deliver on one or more of the five pathways set out in the Winchester District Carbon Neutrality Action Plan (Revised Sept 2023):

Carbon Neutrality Action Plan Pathways	Potential Outcomes & Impacts	Potential Project Activity
1. Reduce energy consumption	Retrofitting energy efficiencies (saving) measures	Insulation and glazing improvements Replacing a gas boiler with an air source heat pump Replacing lighting with LED alternatives Installing energy management systems and monitors
2. Reduce transport carbon emissions	Active travel to reduce the need to use the car. Increase use of low emission vehicles. Contribute to cleaner air.	Electric bike schemes including shared community e-bikes, bike racks and shelters and repair workshops. EV charging points. Local community transport clubs and car clubs.
3. Increase renewable energy generation / purchase	Increase energy supply resilience. Reduce energy costs	Provision of a small solar array on a community building. Solar PV and batteries
