For whom it may concern

I have been employed by Shedfield Nurseries as Manageress for the past 14 years. Up to date we have been selling screened top soil from the Nursery in all my time here and before I joined the company. We have also been selling Aggregates, Crushed Concrete, Type 1 & Ready Mix Concrete produced by Swanwick Civil Engineering In 2003 and, in the latter years, Shedfield Groundworks. Both these companies produced these materials from their recycling activities on the land at the rear of Shedfield Nurseries for delivery to and collection by the public.

To whom it may concern

5th November 2012

Dear Sir,

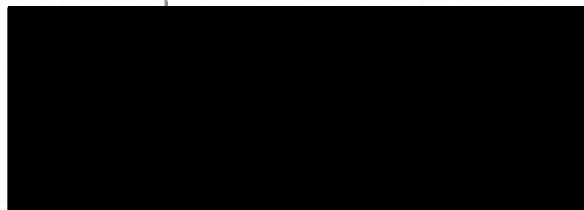

Re:- Ready mixed concrete production, aggregates and hardcore and soil recycling on land behind Shedfield Nurseries

We, as a company, have been a supplier and customer in relation to this site since 1999 up to the present date.

We have delivered soils and concrete for processing as well as purchasing processed materials from the site.

The deliveries and purchases have taken place on a regular and frequent basis, the site being open most days of the week.

Yours faithfully,

K T & T W Heath Tipper Hire

5th November 2012

To whom it may concern,

Dear Sir,

Re:- Material supplies for recycling on land behind Shedfield Nurseries

We operate five tipper lorries and have delivered soils and concrete for processing for many years going back well before 2000.

We are a local company and because of that, and the fact that we are a long standing customer, we know that the activities at the site have been operating on an ongoing basis for that period of time.

Yours faithfully,

K Heath
