

NUTRIENTS AND OUR WATERWAYS

NUTRIENTS ENTER OUR WATER SOURCES FROM VARIOUS PROCESSES

TOO MANY NUTRIENTS CAN MEAN LOTS OF PLANTS GROW, PUSHING AWAY OTHER INSECTS AND FISH

THE COUNCIL MUST MAKE SURE THAT NUTRIENTS FROM THE DEVELOPMENT DO NOT HARM THE ENVIRONMENT

THESE NUTRIENTS ARE CHEMICALS WHICH CAN HELP PLANTS IN THE WATER GROW

THIS CAN HARM THE WHOLE RIVER AND IN TURN THE SEA, WE COULD LOSE SPECIES OF BIRDS, FISH AND MORE

THE DEVELOPER AGREES WITH NATURAL ENGLAND THE NUMBER OF NITROGEN CREDITS OR NITROGEN AND PHOSPHORUS CREDITS THAT ARE NEEDED FOR THE DEVELOPMENT TO BE 'NUTRIENT NEUTRAL'

SOME NEW DEVELOPMENTS WILL NEED TO BE NUTRIENT FRIENDLY

WORKING TOGETHER, WE CAN ALL ENJOY OUR SPECIAL WATERWAY RIVERS
