Apologies, this email was not delivered initially - I hope this is now the correct email address, and that it will still be included in any amendments.

Kind regards

Wendy Williams

Dear Steve

I understand you are the person to contact regarding amendments to the Colden Common VDS. As I am very keen to keep the Upper Moors meadows in Brambridge in their existing and original habitat, I think the description of a Colden Common 'triangle' that includes the Brambridge meadows between Church Lane, Upper Moors and Spring Lane should be removed from the VDS.

These areas are officially countryside outside of the established Colden Common settlement boundary and should be very clearly defined as that. These meadows are of great environmental, historic and aesthetic value and need to be described as such in the VDS.

I hope you consider this point in the VDS.

Many thanks for your help in this matter.

Kind regards

Wendy Williams
