

## Green Grants 2023-2024

Organisation	Grant Requested	Grant Awarded	Ward	Project Description
<b>Green Project Grants</b>				
South Wonston Parish Council	£1,500	£1,500	Wonston & Micheldever	Project with South Wonston Sustainability's Energy Group, to engage local residents on transition to renewable energy. Using a community engagement format, from CSE. enables residents to improve their understanding of renewable energy and come to an informed consensus as to what types and scales of renewable energy might be acceptable within their landscape, the impact those choices might have on the community's energy self-sufficiency and their emissions arising from energy use. Following the session, the wider community are surveyed on the workshop outputs.
West Meon Village Community Shop	£5,000	£5,000	Central Meon Valley	To Install Solar Panels to the rear of the Village Shop which is a Listed Building.
New Leaf Alresford	£1,050	£1,050	Alresford & Itchen Valley	To run two live events to give real life examples of things that businesses and individuals can do differently that will have a positive impact on the environment and the community. The two events will be targeted at different audiences, one for local business and one for individuals.
WinACC (Winchester Action on Climate Change Ltd)	£5,000	£5,000	All wards	To encourage retrofitting to reduce energy used in heating and cooling buildings and replace fossil fuels with renewable energy. This short-term project has two objectives: (1) to support people who need retrofitting advice (a) people on low incomes, and (b) home-owners; (2) to develop and test ways to reach a new target audience: historic buildings.
