RESPONSE SENT:	17/09/2024

Request:

We are currently looking into historic mother and baby homes for unmarried mothers. Under the Freedom of Information Act please provide the following information:

- Details of public health or poor law burials held by your parks/cemeteries service in relation to: Winchester Diocesan Maternity Home, which may also be recorded as 1 North Walls, Winchester (please check your records for both names).
- Covering the years of the home's operation from 1913 to 1967.
- Including the names and ages of those deceased, and whether their graves are marked or unmarked plots.

Our understanding is that this information should be held by your parks/cemetery services as part of local authority burial registers documenting public burials.

Response:

With regards to your request above, the first burial at Magdalen Hill Cemetery was March 1916, so we have no records previous to this date. I have found registered 36 named babies, and they are all buried in a simple grave unmarked and found 2 mothers who died at the above address both in unmarked graves.

The names of the babies are:
