The following question only applies to councils with responsibilities for carrying out housing repairs:

5. Please list all housing repair jobs concerning broken communal lifts since January 2023 – in each case, please state the location (individual tower block/housing development), whether the council classes the block/development in question as being accessible for disabled people, what the problem was, and how long it took for it to be fixed. Successive broken lifts at the same location should be listed separately.

We cannot share completion dates as we don't always accurately get these

Since January 2023 we have reported 202 lift repairs across our blocks of accommodation served by a lift. In the attached spreadsheet, we have listed all reports of repairs to lifts at schemes rather than just breakdowns only.

Of the schemes with reported lift repairs for the period in question:

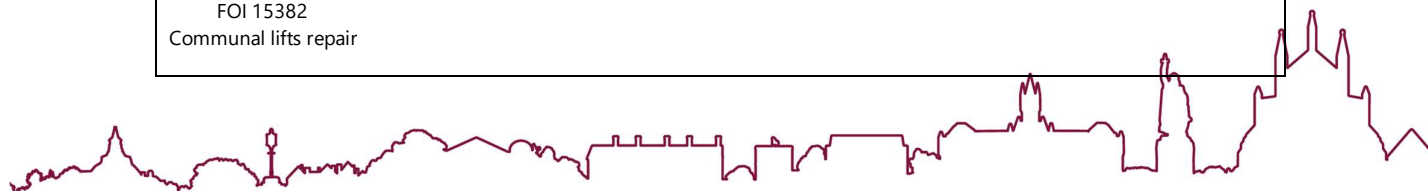

Those schemes **classified as accessible for disabled** people are as follows- Godson House, Chesil Lodge, Danemark Court, Dennett House, Braxton House, Craddock House, Earle House, Victoria Court, Forder Court, Makins Court, Matilda Place, Richard Moss House,

And those which are **not classified as suitable for disabled people** are as follows- Mildmay Court, Belvoir House, Albert Court, Whitewings
