Request

Hello, I would like to make a freedom of information request. I am doing a research project investigating call-off contracts in the public sector. I have identified a potential call-off contract awarded by Winchester City Council, but I can't find details of the framework agreement it was awarded from.

The last two columns ("Title of framework used" and "Further framework info") is where I am missing information -

- Reference: 3fa03ad1-d7e4-41f4-a146-2e1aed73b360_award
- Title: Cashless Parking Solution
- Description: This contract is for the provision of a cashless parking solution for use in Winchester City Councils car parks including Park and Ride. The solution is required to be app based and allow users to pay and extend parking via their mobile phone.
- URL: <https://www.contractsfinder.service.gov.uk/Notice/3fa03ad1-d7e4-41f4-a146-2e1aed73b360>
- Published: 03/04/2025
- Title of framework used:
- Further framework info (e.g., link to framework Contract Finder award or CCS RM code):

Please could you provide the name of the specific framework agreement or DPS used here. If there is any further info which you think would help me locate the framework agreement (e.g., a link to the framework's Contract Finder or FTS listing, the framework provider, or a widely-used reference number such as CCS's RM codes), please use the final column for this.

Please note that I have identified this contract as a possible call-off contract, so there is a chance it is not a call-off. It could be, for instance, procured directly (without being called off from a framework agreement), or could be itself a notice of the establishment of a framework agreement. Therefore I would kindly ask you to specify in this instance what kind of procurement was used in the "Title of framework used" column.

I have provided the title, description, the publication date, and procedure type used to award the potential call-off, as well as a URL link to the call-off in question and a unique reference ID for the potential call-off.

Response
