

Schedule 2 - Service Levels

Monitoring

The Service Provider shall be responsible for carrying out Performance Monitoring against all of the Service Levels during the relevant Period, and shall maintain adequate technical and organisational procedures to enable it to do so.

The Service Provider shall implement all measurement and monitoring tools and procedures necessary to carry out Performance Monitoring at a level of detail sufficient to verify compliance or otherwise with the Service Levels.

For each new or amended Service Level (agreed or determined in accordance with clause 19), reporting of the new Service Level, or reporting of any amended Service Level, will commence with effect from the first month following the month in which the new or amended Service Level is agreed or determined.

Key Service Level Failure

A "Key Service Level Failure" shall occur where the level of performance results in the Service Provider being non-compliant on any particular Service Level within a Period and the non-compliance has not been addressed through the procedure set out in paragraphs 20.15 to 20.18 of Schedule 1.

Financial Deduction

The Service Provider will incur a deduction from the Charges of £364 per day (eight hours) if any of the below Service Levels are not met within any given Period which the parties acknowledge and agree is a genuine estimate of loss. The deduction will be pro-rated depending on the length of time it takes to rectify the Service Level. If the same Service Level is not rectified in the following Period the deduction will be applied at the same rate each month until the Service Level has been rectified.

Service Levels

Ref	Performance Parameters	Monitoring Method	Reporting Frequency Period	Tolerance **
Scheduled cleaning				
01	Service Provider to ensure that all scheduled cleaning (including quarterly cleaning) is completed according to Schedule (ie. on time)	Report detailing: <ul style="list-style-type: none"> • Number of missed scheduled cleans • Location of missed scheduled cleans 	Quarterly	3 service level failures per quarter at an individual site or sites ***
