

**WINCHESTER CITY COUNCIL - NEIGHBOURING LOCAL AUTHORITIES - ISSUES AND IMPACTS**

| <b>Neighbouring Authority facilities</b>                              | <b>Accessible to Community</b>  | <b>Availability Constraints</b>  | <b>Comments</b>  |
|---|---|--|--|
| <b>Havant Borough Council</b><br><br>Havant and Waterlooville Centres | <p>Havant's two centres are managed by the Horizon Leisure Trust – there have been some issues in recent years that have included a limited programme and use of short-term solutions.</p> <p>An analysis of users by consultants identifies migration from Winchester and East Hants sub regions</p> | <p>Programming at the centres has been a constraint – needing more consideration of Sport Development and community needs</p>  | <p>Havant BC engaged consultants to undertake a fundamental management review in 2006, and a feasibility study into a possible replacement centre is due early in 2008. A contribution of almost £1m has been negotiated from the MDA development for provision of leisure facilities in the District.</p> |
| <b>Eastleigh Borough Council</b><br><br>Fleming Park Leisure Centre   | <p>Fleming Park is used by a wide range of users including the Winchester Indoor Hockey League</p>  | <p>Fleming Park is a well-used facility which has had a number of improvements in recent years. These have enabled the Centre to maintain levels of service to users and improve attendances</p> | <p>Eastleigh BC is planning to undertake a similar review of future indoor and outdoor leisure provision, including a review of community leisure facilities on education sites.</p>   |

**RQA - Winchester City Council - Built Sports Facilities Study**

|---|--|---|--|
| <b>Test Valley Borough Council</b><br><br>Romsey Rapids and Andover Leisure Centre                  | Both centres are managed by Valley Leisure which has a contract to 2017. There is evidence from two recent NBS surveys of catchments extending into the Winchester District. | Centres are well used and effectively managed – improvements have been undertaken - £3M at Romsey Rapids and £1.3M at Andover LC. | Major redevelopment is proposed for Andover LC linking with the College and Magistrates Court to develop into a 'cultural quarter' which will include arts, sports, educational and wellbeing services.                                      |
| <b>Fareham Borough Council</b><br><br>Fareham Leisure Centre  | The Leisure Centre is managed by SLM until 2014 – a number of improvements have been made – it appears to have a predominantly local catchment                               | Quest Score - 69%. Some pricing issues which may have led to a reduction in use by some target groups.                            | SLM are a recent addition to the area as a leisure contractor – and although they are Midlands based they have also won a contract in Poole. It can be expected that they will be bidding for other contracts to consolidate their business. |
| <b>Gosport District Council</b><br><br>Holbrook and St Vincent Leisure Centres                      | Contractor is Arena Leisure Group on a short-term contract until 2009. Limited number of improvements and local catchments – no known migration from Winchester..            | Holbrook RC - Quest Assessment of 2003 - 60% – No leisure card in place so non-residents use is not restricted.                   | Possible proposals for the development of a new centre in the Borough – aiming for completion in 2010/11.  |
| <b>East Hampshire District Council</b><br><br>Alton Sports Centre<br>Chawton Park Indoor Bowls Club | EHDC centres attract residents from the east of Winchester District for swimming, gymnastics, climbing and other activities at the Sports Centre.                            | Inadequate public transport is an issue.  | Implications linked to the possible future refurbishment or relocation of the Alton Sports Centre.   |
