**Proposal:** Prune one ornamental, variegated Holly Illex aquifolium in back garden next to shed. Tree has two trunks, diameters at one metre 17cm and 13cm. Overall height of tree is about 6.5m.

We would like to reduce height by about one third and trim sides.

The Holly is getting rather large for its position and shading bog garden and pond.

We are not certain if we need to submit planning application for this relatively small tree.

**Proposal:** own and live at 18 Romsey Road, Winchester, SO23 8TP. In my garden I have a Judas tree which recently split at the trunk and partially fell. It is now held up by a combination of a retaining wall and a tree trunk I have put in to try and keep it up. I had an arborist round to look at the tree and he told me that it is diseased which is probably the reason that it has started to fall. I would like to apply to remove the tree as it is causing cracks in the retaining wall it is leaning on and is likely to fall down if I don't take it down
