Proposal: The application relates to the dwellinghouse and all land edged red on the submitted location plan, which together form a single residential planning unit.

Part of the land edged red was historically part of a field (formerly used as grazing/horse paddock land) and was conveyed into the ownership of the dwelling in 1979.

Since 1979, that land has been physically enclosed and used continuously as domestic garden land incidental to the enjoyment of the dwellinghouse. It has functioned as part of the residential curtilage and has not been used for agricultural, equestrian or other non-residential purposes during this period.

The use of the land as residential curtilage has therefore continued for a period substantially in excess of 10 years and is lawful through the passage of time under Section 171B of the Town and Country Planning Act 1990.

Proposal: Willow-leaved pear (*Pyrus salicifolia*) ? Tree T1 on the attached sketch plan. Proposed works: Fell the tree and remove from site.

Reason for works: The tree is a willow-leaved pear of approximately 2.5 metres in height located within the rear garden. It is in poor condition, with areas of rot/decay present, and is leaning significantly at approximately 50 degrees, giving rise to concern over its structural stability and likelihood of failure. The tree is not visible from any public vantage point and can only be seen from within the private rear garden, so its contribution to the character or appearance of the conservation area is very limited. Given its poor condition, pronounced lean and limited public amenity value, consent is sought to fell the tree in the interests of safety and good arboricultural management.
