

<b>FOI REF:</b>	16746
<b>RESPONSE SENT:</b>	09/03/2026

### Request

Please provide the following information:

Electrical Testing – EICR, PAT, Emergency lighting, and Lightning protection services

- Current Contract Status: Start and end dates of the current contracts.
- Specific department or person responsible for managing these contracts
- - Contract Scope: A general overview of the services covered, such as routine inspections, testing (e.g., to BS EN 62305 standards), and remedial repairs.

### Response

Electrical Testing:

- EICR – Contract status every 5 years, current end date October 2028. Routine inspections carried out.
- PAT – Contract status every 4 years, current end date April 2027. Routine inspections carried out.
- Emergency Lighting – Annual purchase order to current contractor CARDO starting 01/04. Routine testing carried out.
- Lightning protection – Annually by current contractor OMEGA ending 2028.

Department responsible:

Corporate Property, Facilities Officer Asset Management

In addition to the above response:

Winchester City Council does not currently hold any formal contracts for these services. All works of this nature are procured on an ad-hoc basis through individual purchase orders, depending on operational requirements at the time.

For larger procurements, any formal contracts that the Council enters into are published on the Government's Contracts Finder website. You may find relevant information there by searching for Winchester City Council: [Contracts Finder - GOV.UK](#)  
Because we do not hold formal contracts for these services, we do not have contract start/end dates, contract managers, or a defined contract scope to provide under the FOI Act.
