

FOI REF:	16595
RESPONSE SENT:	22/01/26

Request

Please could I request, under the Freedom of Information Act 2000, the number of cyber attacks your local authority has been subject to for each of the past ten years, beginning with 2015

Response

The Council has had zero successful cyber attacks in the last 10 years.

Whilst The Council does not hold information on attempted attacks, it is likely they would be in the millions.
