HOW IS THE GRANT AWARDED AND PAID?

The deadline for Green Business Grant applications is 21 October 2026, with decisions according to the grant eligibility and criteria taking place by 14 October 2026. Decisions are made by Winchester City Council's Economy Team.

There is no obligation for Winchester City Council to fund eligible bids. We may decide to close the grant round early or prioritise grant awards if the programme is oversubscribed. All decisions will be communicated by email to businesses. There is no right of appeal.

Please do not start work on your project or incur any expenditure until you have a signed funding agreement in place.

The grant is paid in arrears once the project is completed and is, in effect, cashback on your project spend. You must be able to cashflow the project while it is in progress – we do not pay grant upfront, nor do we pay grants in instalments while the project is in progress.

The project must be completed by 31 January 2027. Any cost incurred after this date is ineligible for grant funding.

We aim to pay grants within 28 days of receiving all the information we need to process your claim. We will notify you when your claim has been processed and when to expect the grant to reach your bank account.

All payments of grant will be made by a BACS transfer to the nominated business bank account, as confirmed in the application form. Please ensure that your bank details are correct to minimise delays in payment.

Grant income received by a business is taxable therefore will be subject to tax. Only businesses which make an overall profit once grant income is included will be subject to tax.
