Winchester City Council

FOI REF:	17915
RESPONSE SENT:	06/10/2026

Request.

We would be grateful if you could provide the following information for the last 10 years:

- The number of reported incidents or investigations involving tethered dogs.
- The number of reported incidents or investigations involving dogs kept in cages or confined by other means.
- The number of warnings or notices issued to dog owners concerning the tethering, caging or confinement of their dog.
- The number of prosecutions involving the tethering, caging or confinement of a dog and, where available, the outcome of those prosecutions.
- Copies of any incident reports, case summaries or case studies relating to the above, with personal or confidential information redacted where necessary.

Response

We do not categorise cases according to dogs confined, tethered or caged so it is not possible to get these statistics.

I can not find any notices or warnings relating to the tethering, caging or confinement of dogs.

There have been no prosecutions relating to the tethering, caging or confinement of dogs.
